SACRAMENTO'S ASSESSMENT.

Computation of Values in Sacramento County—Recent Reductions of Assessments.

The County Board of Equalization having completed its work, a large clerical force under Assessor Houston has been engaged several days in extending the assessment roll and ascertaining the amount of reductions made, and only completed its work late last night. The reductions made by the Board of Equalization are as follows:

City roll—	
Reduction on real estate	$28,810
Reduction on improvements	101,670
Reduction on personal property	268,475
Total city	$488,955
County roll—	
Real estate	$319,500
Improvements on same	9,275
Total county	$328,835
Total city and county	$1,017,790

As is shown by the figures below, the total value of all property as returned on the assessment roll was:

All real estate	$19,816,708 00
All personalty	6,861,735 00
Total	$26,678,443 90
The total reduction being	1,017,790 00
Now leaving the total values in this county	$25,660,653 90

The assessed values for last year aggregated $18,578,385, which gives an increase this year over last in the valuations on the assessment roll of $7,082,268 90.

Below are given abstracts from the return of the Assessor of Sacramento in August, 1880, to the State Board of Equalization, compared, so far as possible, with the return of the Assessor of Sacramento for statistical purposes, as shown in the report of the Surveyor-General, June, 1879, and compared with a return of the Assessor of Sacramento for 1879, as now on file in the office of the State Board of Equalization.

It must be borne in mind that the return for statistical purposes gives the growth, product, etc., for the year, while both the other reports show only the amount and property on which the assessment was based. Thus, a farmer might return to the Assessor the product of a field of potatoes to have been ten tons for the year, while for the purposes of assessment he had but one ton on hand:
